

ALC UPDATE

It's been 8 months since our last newsletter went out, where has the time gone! There have been a lot of progressive changes here at Gundaroo during this time. Firstly, you might have noticed from the top of this page, we have abbreviated our logo to ALC Brahman. As far as property improvements go, we have pulled another three paddocks, up-graded a pump for more reliable water, built a new shed and started on a new set of yards.

Our 4th ALC bull sale will be held on Thursday 3rd of July at Gundaroo. This year's sale will consist of about 90 bulls. They have done well considering the late start to the season and are ready for work. As usual, the bulls will be presented straight off grass and sold under the Helmsman bidding system. This gives buyers plenty of time to walk through and select bulls, whilst analysing the data supplied, without pressure. All bulls will have four generations of female fertility data available as well as age of puberty and scrotal measurement. EBV's for growth, scrotal size and days to calving are also presented.

For more information on reading ALC bull catalogues go to www.alcrahmans.com.au and click on "Semen/Bull Sales" tab, then go to "How to read ALC Sale Catalogue". Catalogues will be available online mid June. If you do not have internet access please feel free to contact Louise or myself for more information, to discuss which bulls will best suit your requirements or a catalogue. Our door is always open.

On sale day we will have sires on display as well as groups of cows on display while entering "Gundaroo".

ALC sale days are about two things, matching genetics to meet your requirements and goals and meeting with leading like minded cattlemen from around Australia. Please feel welcome to bring other interested producers.

If semen is what you'd prefer for this year's mating, please go to our web site www.alcrahmans.com.au and click on "Semen/Bull Sales" tab, then go to "Semen Sales". The following pages of information are on our two most recently milked sires.

We have generated graphs on many different aspects of the ALC herd's progress and recently added them to our web site. If you are interested in having a look, please go to www.alcrahmans.com.au and click on "Genetics" tab, then go to "Graphs".

Hope to see you soon at "Gundaroo",

Kind Regards,
